**RAPPAHANNOCK ELECTRIC COOPERATIVE**
**Fredericksburg, VA**

**VOLUNTARY TARIFF**
**AVAILABLE PURSUANT TO VA. CODE § 56-585.3(A)(8)**

# RESIDENTIAL CONTROLLABLE THERMOSTATS

**SCHEDULE CT**

## I. AVAILABILITY

Schedule CT ("Program") is available on a voluntary and first-come, first-served basis to residential Cooperative customers that receive electric service under Schedule A-1. Selected customers who participate ("Participants") may not be enrolled in REC's Smart Response A/C Switch Program.

Participants taking service under this Schedule agree to allow the Cooperative to control the Participant's eligible controllable thermostat during periods of anticipated high system demand, as necessary to respond to or mitigate a system emergency, or when determined by the Cooperative to be appropriate for economic or system-operational purposes.

Participants must be enrolled as a MyRECSmartHub user and be able to receive SMS texts, emails, or push notifications from REC or MyRECSmartHub via smartphone or computer.

The Cooperative reserves the right to limit the number of participants taking service under Schedule CT. For current availability please contact the Cooperative.

## II. APPLICABILITY

Applicable to Participants as a voluntary rider to the applicable standard tariff.

## III. CONTROL PERIODS

Controllable thermostats are typically subject to control by the Cooperative during peak demand and/or energy periods or high energy costs, typically occurring during the Summer (June, July, August, and September) and Winter (November, December, January, and February) months.

## IV. EQUIPMENT

Participants under this rate agree to allow the Cooperative to control the member's thermostat(s) ("Device") to accomplish the purpose described herein. The make and model of the thermostat(s) available to participate in the program shall be at the sole discretion of the Cooperative and may be subject to change. Such information can be found in the Program Terms and Conditions and on the Cooperative's webpage. Multiple thermostats enrolled at the same service location must be from the same manufacturer.

V. SCHEDULE CT BILL CREDIT

Each Participant shall receive a one-time bill credit of twenty-five dollars ($25.00) per account upon enrollment. Bill credits are limited to the first thermostat enrolled in the Program per Participant. The credit will be applied on the succeeding billing period following the successful enrollment of the Device.

Each Participant shall receive an annual credit of forty dollars ($40.00) upon twelve (12) months of successful Program participation.

VI. TERMS AND CONDITIONS SPECIFIC TO SCHEDULE CT

Participants who unenroll before the stated one (1) year contract term or are removed from the Program for violating the Program Terms and Conditions may be charged back, not to exceed the bill credit amount.

Participants acknowledge that bill credits will be provided only if the Participant and Device satisfy the eligibility and participation requirements set forth in the Program Terms and Conditions.

VII. CONTRACT TERM

Participants under this rate commit to participation for twelve (12) consecutive months. Participants opting out of the Program or removed from the Program for violating the Program Terms and Conditions within the first twelve (12) months after enrollment may be charged back any previous credits, not to exceed forty dollars ($40.00).
