

INFERNO

THERMOSTAT TERROR

Inferno loves cranking up the thermostat and letting warm air escape. Drafty doors, air leaks, and energy-hungry space heaters make him stronger. The more heat a home wastes, the bigger Inferno's power grows.

INFERNO

THERMOSTAT TERROR

Inferno loves cranking up the thermostat and letting warm air escape. Drafty doors, air leaks, and energy-hungry space heaters make him stronger. The more heat a home wastes, the bigger Inferno's power grows.

VILLAIN STATS

Heat Waste

Thermostat Trouble

Space Heater Hazard

Draft Damage

HERO CHALLENGE

COOL INFERNO'S HEAT!

STEP 01 Set the thermostat to 68°F or lower

STEP 02 Avoid using space heaters—they use lots of energy

STEP 03 Check for drafts around doors and windows

STEP 04 Keep vents clear and unblocked

STEP 05 Keep appliances out of unconditioned spaces

FUN FACT

Lowering your thermostat just 1° can save about 1% on heating costs!
