

Cybersecurity Intern

Rappahannock Electric Cooperative seeks an Intern to join our Cybersecurity Team. This role will be about 29 hours per week. The information below will explain educational qualifications and expectations.

Candidates must be current undergraduate or graduate students with good academic standing (3.0 GPA and above). Preferred candidates will be studying the following disciplines IT, Cybersecurity, etc.

The successful candidate must possess knowledge of analytical & research skills, be able to communicate in both verbal and written form clearly, possess capacity to understand quantitative and qualitative data collection instruments, the ability to perform job functions independently, and the ability to work well within a team structure to solve problems, explore new technologies, and learn from one another. Must also be able to communicate technical information in a form that is easily understood by others. Creativity, initiative, good judgment, logic, self-motivation, perseverance, and the ability to express thoughts clearly and simply are essential. Must be able to review, organize, and disseminate information in a timely manner.

The ideal intern for this environment will be enthusiastic and collaborative.
